HEALTHCARE
Our care is currently organized differently:
• The GP practices are only accessible by appointment
• Health complaints are handled by telephone as much as possible. If possible, call your own doctor on weekdays
• If you are unsure whether you should see a doctor, you can call to discuss this by telephone
• If you are seriously ill, if there are urgent complaints, please contact one of the GP practices by telephone (see VVV website), or the GP post during evening / night and weekend hours (+31 (0) 222-321143).

GENERAL ADVICE AND VULNERABLE GROUPS
• We ask vulnerable groups, people over 70 years and patients with underlying conditions, to adhere to the measures. Also consider them on the street and in establishments or institutions.
• Do not go on holiday if you have recently developed medical complaints and / or if your family is obliged to stay at home due to a (possible) infection.

SOURCES FOR CURRENT INFORMATION
• The TexelMap app has been developed by VVV Texel. A spreading app on which you can see whether it is too busy somewhere, so that you can responsibly decide where you are going on Texel.
Download the app for free:
